SUMMARY

Instructional designer and learning architect with 20+ years across secondary, adult, and corporate learning, including a decade building full-cycle eLearning practices for global enterprise clients. Designs scalable learning architectures and has spent the past several years embedding AI into every stage of the production and enablement cycle. Reached thousands of global learners over six years of independent practice while cutting production cost by more than half through AI-generated voice, animation, avatars, and imagery.

EXPERIENCE

E-Learning & Digital Media Producer

Mind Garden Media (Independent Practice) · 2016–Present · Remote, global clients

- Owned full-cycle learning programs for corporate, healthcare, government, and education clients: needs analysis through SCORM/xAPI deployment.
- Cut production cost by more than 50% by rebuilding the pipeline around AI (synthetic voice, animation, avatars, generated imagery) with no loss in quality.
- Delivered AI enablement training live and asynchronously, covering ChatGPT, Canva AI, prompt engineering, and responsible-use workflows.
- Built accessible, translation-ready courses to WCAG AA / Section 508 standards for global markets.

Graduate Instructor

Colorado State University · 2016–Present

- Taught graduate-level coursework for working adult learners, applying instructional-design and AI-fluency principles.

Secondary Math & Science Educator

1998–2016

- Taught math and science for 18 years, building the foundation in learning science and curriculum design.

SELECTED CLIENTS

Corporate, SaaS & Compliance: Kore.ai (50+ Articulate Rise courses), ExxonMobil, GxP Healthcare, Kenvue, L'Oréal, Cars.com, AppSmart/Pendo, CyberCatch (VR training)

Certification, Government & Community: National Highway Institute, NC Realtors, Mental Health First Aid, TikTok Business Academy
